CHECK

Infoport Database Connection

[Connection Section](#)

DBMS Type
MySQL

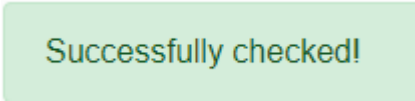

Server
127.0.0.1

Port
3306

Database
ea_infoport

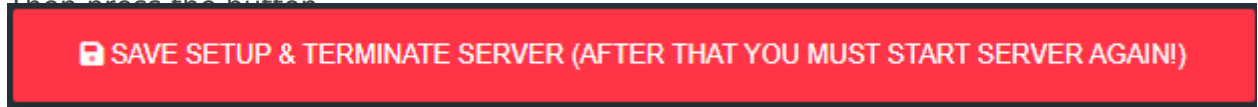

After filling in the form, press the button

correctly, it will appear in each section

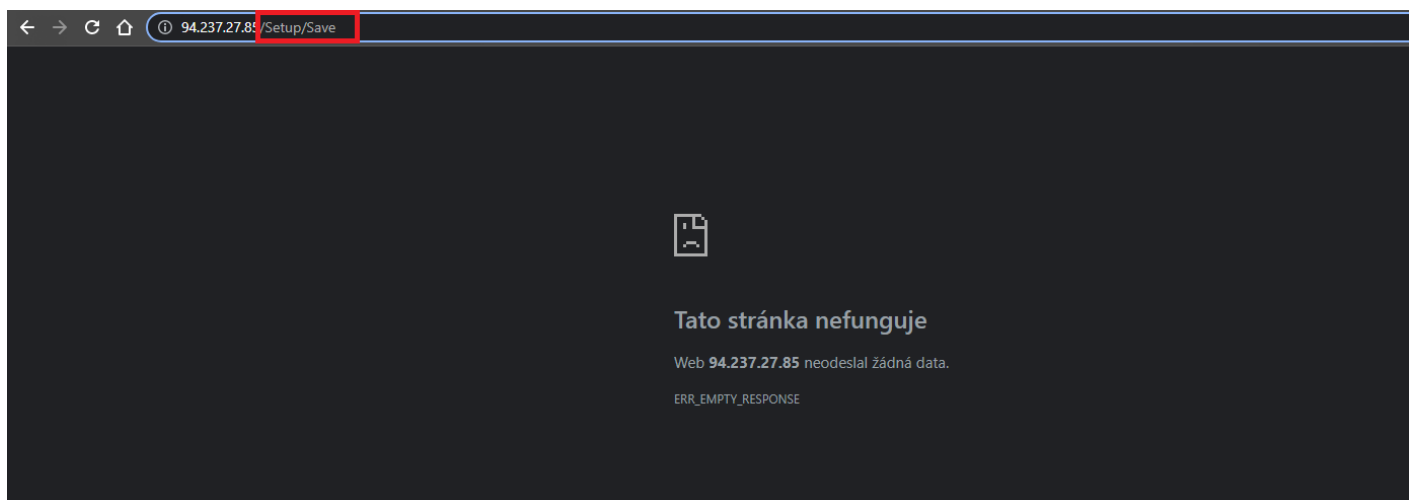

Then press the button

and wait

until the entire Configuration Manager is set up and saved.

This page pops up, where we just delete **/Setup/Save** in the Url address and hit Enter.
