

# Setting an email notification server

We have created three notification services to alert users of changes to the diagram

- [Notification Hour Job](#)
- [Notification Day Job](#)
- [Notification Week Job](#)

The administrator must set up an email server to be able to send notification emails to users.

**Notification E-Mail Server** [Notification E-Mail Server Section](#)

Mail Address	Mail Port
<input type="text" value="smtp.fortion.net"/>	<input type="text" value="587"/>
Mail Account	Mail Password
<input type="text" value="notifikace@eainfoport.cz"/>	<input type="password" value="....."/>
Sender Email	Sender Name
<input type="text" value="dataprojekt@eainfoport.cz"/>	<input type="text" value="Dataprojekt"/>

Redirect Address for diagram urls

Diagram Thumbnail
