

Version 8.4.0.12 - Access to views

In version 8.4.0.12, a new permission for views (Views) is added. For users/groups with permissions on the tree, you must also add permissions on views, otherwise the view will not be displayed.

Version 8.4.1.1 there is no need to add settings. A user authorized to the repositories tree also has access to views.

List of permissions

Permission	
Repository administrator	GROUPS USERS
Access to publication	GROUPS USERS
Access to repository tree	GROUPS USERS
Editor Glossary	GROUPS USERS
Access to views	GROUPS USERS
