

Access tokens of deleted users

 Access tokens of deleted users

The Access tokens of a user who has been deleted are transferred from the "Access tokens" section to "The Access toknes of deleted users" section.

Access toknes of deleted users can be filtered, transferred and removed in the same way as "Access tokens".

The screenshot shows a web interface for managing access tokens. At the top, there is a navigation bar with 'Repository Management', 'Portal Management', and user information 'admin@OpenIDEalInfoportT3.cz (admin)'. The main heading is 'Access Tokens (Cancel filter X)'. Below this, there is a sub-heading 'Access tokens of deleted users'. The interface features a table with four columns: 'User name', 'Diagram name', 'EA Guid', and 'Creation date'. The 'User name' column has a search filter set to 'admin'. The table contains two entries for the user 'admin'. Below the table is a 'Remove' button. At the bottom, there is a section 'Transfer access tokens to users' with a list containing 'admin' and buttons for 'User selection' and 'Transfer'.

| User name | Diagram name | EA Guid | Creation date |
|--------------------------------|--------------|--|---------------------|
| <input type="checkbox"/> admin | Diagram | [A1E33C57-09BB-4833-870B-59FAD92F9392] | 11.02.24 2024-01-15 |
| <input type="checkbox"/> admin | Diagram_url | [D9E05B22-B6FC-481c-9C79-1E938CAC6BE7] | 11:02:10 2024-01-15 |
