

Advanced search

If the user selects advanced search, elements, diagrams and other elements (*attributes, operations, etc.*) are searched. All their fields are searched.

The user can also choose whether to search:

- *Exact match* - searches only for elements that match the search phrase
- *Case-sensitive* - case-sensitive (*works only if the EA database is CaseSensitive*)

Simple **Advanced search** EA Path search GUID search Diagram search

Searches also in Diagrams and many additional fields, including Attributes, Operations, Tagged Values and Test Cases

Phrase
Purchase

Exact match ⓘ
☐

Case sensitive ⓘ
☐

SEARCH

In the "*Phrase*" field, the user types the artifact being searched for.

If the user wants an exact match, he checks the "*Exact Match*" box and/or if he wants case sensitive, he checks the "*Case Sensitive*" box and clicks the "*Search*" button.
