

Copy URL

A user can copy a URL and send it to a colleague.

The colleague will only be able to view this URL if he/she **is logged in**; otherwise, he will be directed to the login screen.

This functionality is available in the context menu under the symbol 

The screenshot displays the EA Test application interface. On the left is the 'Repository Browser' showing a tree of artefacts. The main area displays the 'EA 15 Examples' artefact, which includes a grid of links to various examples and a table of metadata.

EA 15 Examples

The links below will take you to examples of features that have been introduced in Enterprise Architect version 15.

Name	Type	Stereotype	MDG Technology
EA 15 Examples	Class		
Author: Pat Taylor	Created: 4/3/2019 1:39:24 PM	Modified: 5/5/2022 1:35:18 PM	Version: 1.0
GUID: (A18C6E84-5B6A-4a2d-A531-DFD5CAD10894)	ID: 965	Theme:	

Notes

Discussion

More detailed control of discussions (editing, deleting, ...) is performed using the context menu

Buttons: Add a thread, Show closed threads

After clicking on the “Copy URL” icon, a pop-up chart will appear where the user can get the URL of the relevant artefact.

Successfully copied

Copy URL path

<http://94.237.27.85/Repository?guid=%7BA18C66>

Copy Close

After clicking on the “Copy” button, the user saves the URL to the clipboard.

An identical method is to select the entire line with CTRL+A and copy it to the clipboard with CTRL+C.

Then just paste the URL in the appropriate place.
