

Creating a Glossary

To create a glossary, a user must be assigned the "*Portal Administrator, Repository Administrator, or Glossary Editor*" permission.

The screenshot shows the 'Glossary' management page. At the top, there is a navigation bar with 'Alpha_repo', 'Search', 'Repository', 'Views', and 'Publication' on the left, and 'Repository Management', 'Portal Management', 'Barbora Dřevojánková (bdrevojankova)', and 'Logout' on the right. The main heading is 'Glossary'. A green 'CREATE' button is in the top right corner. Below the heading is a table with three columns: 'Term', 'Type', and 'Meaning'. The table contains two entries: one for 'ACME' with type 'Technical' and meaning 'The Automatic Certificate Management Environment', and another for 'Test' with type 'Testovací' and meaning 'Testovací test'. Each entry has 'EDIT' and 'DELETE' buttons. At the bottom right, there are controls for 'Show 10 entries' and 'Setup of columns'.

Term	Type	Meaning	
ACME	Technical	The Automatic Certificate Management Environment	EDIT DELETE
Test	Testovací	Testovací test	EDIT DELETE

After clicking on the "Create" button, the user is redirected to the "Create Glossary" table. The table can be filled with the term, type and meaning.

The screenshot shows the 'Create Glossary' form. It has a heading 'Create Glossary' and a blue 'NEW TYPE' button in the top right. The form consists of three main sections: 'Term' with a text input field, 'Type' with a dropdown menu currently showing 'Technical', and 'Meaning' with a rich text editor. At the bottom left is a 'BACK' button, and at the bottom right is a green 'CREATE' button.

To create a new type, the user clicks on the "New Type" button. After displaying the table and filling in the type, the user clicks on the "Save" button.

The screenshot shows the 'Create new type for glossary' form. It has a heading 'Create new type for glossary'. The 'Type' dropdown menu is open, showing 'Information' as the selected option. At the bottom left is a 'BACK' button, and at the bottom right is a green 'SAVE' button.

After saving, the user is redirected back to the table to create the glossary, where they can see the newly created type by clicking the arrow next to the type.
