Creating a new user in the portal

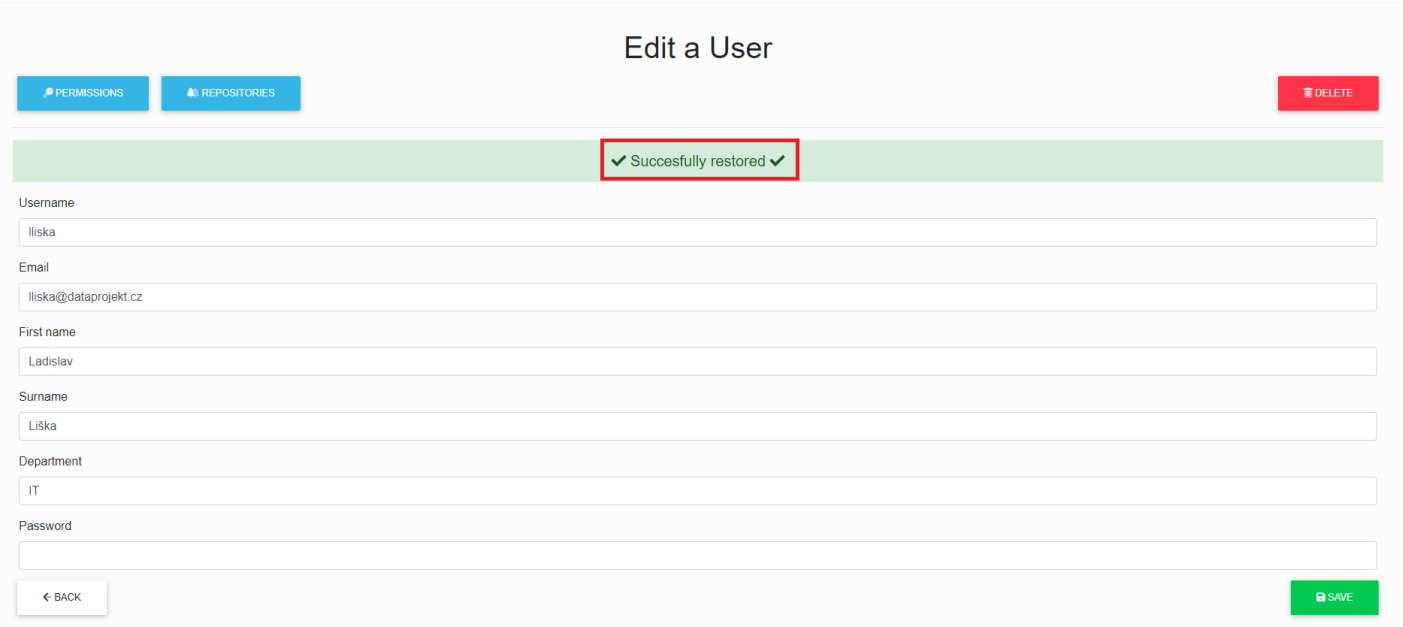

To create a new user, the portal administrator clicks the "Create" button in the User List.

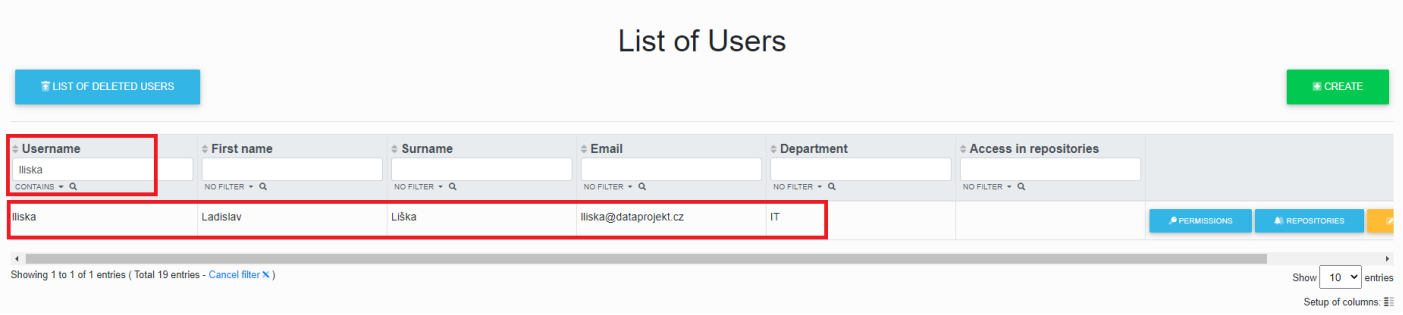

The following dialog is displayed to the portal administrator.

After filling in the details, the portal administrator clicks on the "*Create*" button , then the administrator will see the message "*Successfully created*".

After clicking on the "*Back*" button, the administrator is redirected to the table with users, where he can use the filter to find the currently created user.
