

# Forced Refresh

Forced refresh is actually “*Refresh*” and is used if a change has been made to an artefact and has not been applied to EaInfoportT3.

For example, if a user has a diagram open in EaInfoportT3 and changes it in some way in Enterprise Architect. Thus, after clicking on the forced refresh icon, these changes will be immediately applied to EaInfoportT3.

The functionality is available in the context menu under the symbol 

The screenshot shows the Enterprise Architect software interface. On the left is the 'Repository Browser' with a tree view of the 'Example Model'. The main workspace displays 'EA 15 Examples' with a grid of icons representing various features. A context menu is open over the 'EA 15 Examples' diagram, and the 'Forced refresh' icon (a circular arrow) is highlighted with a red box. Below the diagram, there is a 'Notes' section with a table of metadata.

Name	Type	Stereotype	MDG Technology
EA 15 Examples	Class		
Author	Created	Modified	Version
Pat Taylor	4/3/2019 1:39:24 PM	5/5/2022 1:35:18 PM	1.0
GUID	ID	Theme	
{A18C6E84-5B6A-4a2d-A531-DFD5CAD10894}	965		

At the bottom of the interface, there is a 'Discussion' section with buttons for 'Add a thread' and 'Show closed threads'. A note states: 'More detailed control of discussions (editing, deleting, ...) is performed using the context menu'.

After clicking on the “*Forced refresh*” icon, the changes of the artefact in EaInfoportT3 compared to Enterprise Architect will be applied.
