# Move the section

The user can change the order of each section.

To change the order, the user clicks on the "*Order*" button.

---

The user will see arrows next to each section.

---

Clicking on the arrow will move that section one section to the left or right.

After moving a section to the desired order, click on the "*Order*" button again, see the first picture, and further moving of sections will not be available.

---
