Removing Repositories and Repository permissions from a user in the portal

The portal administrator can removed repository and repository permissions to a user.

After clicking the "*Add*" button, the administrator is redirected to the table of the user to whom he wants to add the repository and repository permissions.

After checking the checkbox, the administrator clicks on the "delete" button, after which the administrator receives the message "Successfully removed".

User: List of repositories and permissions
Ladislav Liška (lliska)
