Setting default section rights

The default section rights settings can be found under the "*Edit*" icon.

The user will be presented with the following dialog where they can set/change the default rights "***Reading is enabled***" and "***Approval is required***".

- ***Reading is allowed:***
  - When checked, users/groups can default to read the package and any child packages that do not have the default read disabled.
  - When checked with an "x", users/groups cannot default read a package and all its child packages that do not have default read enabled.
  - With an "empty square", the user/group inherits default privileges from the parent packages.
- ***Approval required***":
  - When checked, diagrams are added to the publication in the "*To be approved*" state. When unchecked, the status is "Approved.

If everything is set, the user clicks the "*Save*" button.
