

Transfer of access keys

The screenshot displays the 'Access Tokens' management interface. It features a table with the following columns: User name, Diagram name, EA Guid, and Creation date. The table contains six entries, all with 'admin' as the user name. Below the table, there is a 'Transfer access tokens to users' section. This section includes a 'User selection' button (highlighted with a yellow box) and a green 'Transfer' button. The interface also shows a 'Remove' button and a 'Showing 1 to 6 of 6 entries' status.

User name	Diagram name	EA Guid	Creation date
admin	Getting Started	(78D489BF-403C-4B83-A787-87DCFE397F88)	11:49:12 2024-01-15

Showing 1 to 6 of 6 entries

Transfer access tokens to users

admin User selection Transfer

At the bottom of the screen, click on "User Selection". After selecting the user, specify which access keys to transfer (using the checkbox). Confirm the selection with the green "Transfer" button.

To transfer access keys, it is necessary that the user to whom we are transferring the key has at least the same permissions on the package.
