

Posuvník mezi stromečkem repozitáře a detailem

Posuvník umožňuje rozšiřovat šířku stromečku repozitáře.

The screenshot shows a web application interface. On the left is a 'Repozitář' (Repository) tree view under 'Example Model'. It contains several items, including 'Composite diagram'. On the right is a details panel for the selected 'Composite diagram'. The panel has a header with 'Composite diagram' and a dropdown arrow. Below the header are fields for 'Název' (Name), 'Typ' (Type), 'Stereotyp' (Stereotype), 'Autor' (Author), 'Status', 'Created', and 'Modified'. There is also a 'Poznámka' (Note) field. Below these fields is a tabbed interface with tabs for 'Constraints', 'Požadavky' (Requirements), 'Soubory' (Files), 'Tagované hodnoty' (Tagged values), 'Vazby' (Associations), 'Oprávnění' (Permissions), and 'Diskuze' (Discussion). The 'Oprávnění' tab is currently selected. Below the tabs is a table with columns 'Name', 'Notes', and 'Type'. The table is empty, with a message 'Nenalezena data pro tabulku' (No data found for the table). At the bottom of the table, it says 'Zobrazeno 0 - 0 z 0 záznamů' (Showing 0 - 0 of 0 records). A red box highlights a slider control between the repository tree and the details panel, with a red arrow pointing to it.
